## Warming churches

### **BANKAUFLAGE SIMPLEX VERANO NON-SLIP**

**Total thickness 30 mm · 40 mm**

#### **Description of material:**

##### **Fabric**

Flat-woven fabric for heavy use, **100% PES**;

Fabric weight:	539 g/RM (width 140 cm)
Resistance to abrasion:	73,000 cycles;
Fastness to rubbing:	5
Light fastness:	5
Fastness to water:	5
Finish:	clean-active stain protection

**23 shades acc. to colour chart**

##### **Filling foam**

Very heavy-duty, high-quality foam, density 60 kg /m<sup>3</sup>, compressive strength 8.5;  
height of foam 30 mm or 40 mm.

##### **Non-slip adherent foam**

2.5 mm non-slip adherent foam with PES/glass fibre primary backing material, can be wet-washed.

##### **Production method**

The cover material is bonded permanently with the foam by welding, preventing creases from forming.  
The runners are available as a single piece, up to a length of 5 m.

##### **Made to measure**

The upholstery is made to measure for each individual pew **exactly, without seams**; corners, curves, diagonal edges and recesses are finished individually.

**Warranty 10-year warranty on all the upholstery**
